PRICE FIVE CENTS

SHIPWRECKED CREW ENROUTE TO MAINLAND

Men of Schooner Eldorado
Were Compelled to Resort
to Clover as Food

TERRIBLE BATTLE FOR LIFE NECESSARY, SAY SURVIVORS

Received Utmost Kindness at
Hands of Natives and Resi-
dents of Easter Island

So weak and famished that they fell upon a field of clover for food, almost denuded of clothing, with body and feet covered with sores due to a season of terrible exposure to a tropical sun and a continuous deluge of sea water that at times would threaten to swamp a small ship's boat bearing 11 men, a party of shipwrecked sailors with Chief Officer J. Wilson of the ill-fated American schooner Eldorado was picked up at Easter Island and taken to Sydney, N. S. W. They are now returning to the United States as passengers in the Oceanic liner Ventura that arrived at Honolulu this morning.

Eleven days in an open boat, subjected to the ravishing pangs of thirst, hunger and its attendant train of distressing ailments, the little party then under the command of Captain J. Benson were obliged to leave the battered and wrecked lumber laden Eldorado in the Mid-Pacific on June 12. The Eldorado from Puget Sound for Valparaiso met with a storm, the wind rising to the pitch of a hurricane, carrying every thing before it, and causing the Eldorado to leak at a rate of several inches an hour.

Practically destitute, but having been provided with clothing and transportation, seven men, including a Japanese mess boy are on the way to San Francisco, where their pitiable case will be brought before the authorities and the owners of the lost schooner.

It was a terrific battle for life waged by the men in the Eldorado. The story of the wreck is now well known, as Captain Benson and three men reached San Francisco the earlier part of December after a voyage of 1000 miles to Tahiti, where they connected with a vessel bound for the Golden Gate.

The little party which today is in Honolulu spent the greater part of three months on Easter Island, a small isolated spot in the southeastern part of the Pacific, before the British steamer Knight of the Garter, with a damaged propeller put into one of the more sheltered bays along the coast of the islet for the purpose of making temporary repairs. The distressed men then made their presence known to the commander, who in departing from Easter Island some days later gave the castaways a passage to Sydney, N. S. W.

Lost Everything.
Until the last moment the battle

FIGHTING KANSAN LEAVES FOR TROUBLE ZONE THIS AFTERNOON

General Funston and Aide Outgoing Passengers in S.S. Ventura—Former Will Take Command of 2nd Division, Including All U. S. Troops on Mexican Border—Wears Civilian Clothes for First Time in Three Years

Frederick Funston, brigadier-general of the United States army, leaves Oahu this afternoon. After 9 months and 19 days as commander of the Hawaiian department, the fighting Kansan is off for Texas City, to take command of the 2d division, including all of Uncle Sam's troops on the Mexican border. It is a big command, and if the United States goes over the line to pacify Mexico, General Funston will be right there at the opening of hostilities. General Funston will be accompanied by his aide, Lieutenant Wm. G. Ball, but his family will remain here until the February transport.

General Funston, wearing civilian clothes for the first time in three years, by the way, put in a busy morning, winding up his official business, and attending to last-minute details. Command of the Hawaiian department was formally transferred to the brigadier-general Macomb, and the latter's aide, Lieutenant C. I. Crockett, took over Lieutenant Ball's duties as inspector of small arms practice for the department. At 11:45 all the officers of the department staff called to say good-bye to the departing commander, and the most sincere good wishes from his subordinates will follow the general from Hawaii. "I am leaving my friends here with great regret," said General Funston.

HUSBANDS AND WIVES AFFECTED BY INCOME TAX

Important Ruling Received by
Collector Cottrell from the
Washington Office

EXEMPTION MAY BE MORE IF COUPLE SEPARATED

When Living Together, Entitled
to Deduction Only from Net
Income of Both

Husbands and wives all over the territory are affected by the provisions of the new federal income tax law, and there are some peculiar and interesting regulations in it, according to an important communication received yesterday by Collector of Internal Revenue Cottrell from Washington.

For instance, a husband and wife living together may have to pay considerably more than a husband and wife living apart.

The ruling says:
"Regulations regarding the specific deduction provided for under paragraph C of the provisions of section 2 of the income tax law of October 3, 1913, relative to the returns of husband and wife.

"Every single person, and every married person not living with husband or wife in the sense below defined, who has a net income exceeding \$3000 per annum, is liable to pay the normal income tax under this law, but in making return for such tax may claim an exemption of \$3000 from their total net income.

"Husband and wife living together are entitled to an exemption of \$4000 only from the aggregate net income of both, which may be deducted in making the return of such aggregate income for taxation. However, when the husband and wife are separated and living permanently apart from each other, each shall be entitled to the exemption of \$3000.

"If the husband and wife not living apart have separate estates, the incomes from both may be made on one return, but the amount of income of each, and the full name and address of both must be shown in such return.

"The husband, as the head and legal representative of the household and general custodian of its income, should make and render the return of the aggregate income of himself and wife, and for the purpose of levying the income tax it is assumed that he can ascertain the total amount of said income.

"If a wife has a separate estate managed by herself as her own separate property and receives an income of more than \$3000, she may make return of her own income, and if the husband has other net income, making the aggregate of both incomes more than \$4000, the wife's return should be attached to the return of her husband, or his income should

WILL DR. SUN BE PERMITTED TO LAND HERE?

Report That 'Chinese Libera-
tor' Is On Way Arouses In-
ternational Question

PROBLEM WILL REQUIRE WASHINGTON'S ATTENTION

Under Immigration Laws, Re-
fugee Is Probably Affected by
Chinese Exclusion Act

Dr. Sun Yat Sen, founder of the Chinese republic and now a political refugee, has suddenly brought to the front a question of international interest with Honolulu as the center of the difficulty.

The report that Dr. Sun is on his way to Hawaii has raised a problem with the local immigration authorities that will require reference to Washington. Will the "great liberator" land in Honolulu or will he be refused admittance?

The rumor that Dr. Sun will shortly arrive here on a liner from Japan has brought the matter up sharply and it may be stated that the problem is now under consideration by Inspector in Charge Halsey, of the federal immigration station here. While declining this morning to discuss the probabilities, Inspector Halsey said, in response to a question by the Star-Bulletin, that several knotty points will come up in case the Chinese revolutionist carries out his intention of returning to Hawaii, where he lived many years before going to China to overthrow the Manchu dynasty.

A problem that involves as weighty questions and will attract as much attention as that of the Cipriano Castro case in New York is the Dr. Sun case. The two cases are not similar in many respects; in some respects the considerations are much the same. Cipriano Castro, ex-dictator of Venezuela, after vainly trying to regain power by heading a revolution, attempted to enter the United States. The Ellis island immigration authorities refused him admittance and the case spread into world-wide notice. In the end Castro was barred under the provisions of the law which deny entrance to aliens guilty of a crime involving moral turpitude.

Castro was a political refugee. So is Dr. Sun Yat Sen. But so far as the U. S. immigration authorities are concerned, it is not known that they have any information on which to base a ruling that Dr. Sun is an alien guilty of a crime involving moral turpitude. Furthermore, is Dr. Sun an alien?

That is a question that may require a decision in Washington. Dr. Sun was born in Hawaii, thereby being born a citizen of the United States. He went to China and helped set up the republican form of government. Under the federal laws, it is likely that he has expatriated himself, and if so, he is an alien.

Section 2 of the law relating to expatriation, effective March 2, 1901, says:
"That any American shall be deemed to have expatriated himself when he has been naturalized in any foreign state in conformity with its laws, or when he has taken an oath of allegiance to any foreign state."

Dr. Sun, it will be remembered, supported the republic under Yuan Shih-kai for some time after it was founded, and it is believed that he has expatriated himself as an American citizen under the meaning of the statute quoted above.

In that case he must now be regarded not only as an alien, but as a Chinese citizen, and is thus affected by the Chinese exclusion act. Under this act, only merchants, students and travelers are "exempt" and allowed to enter the United States. Had Dr. Sun come here immediately after the first revolt, it is possible that he would have been admitted, the authorities probably taking the position that as there was then no settled form of government in China, he could not have become a Chinese citizen.

When the various questions were brought up to Inspector Halsey this morning, he was interested but declined to commit himself by expressing an opinion as to any course of action.

At the Chinese consulate office this morning it was stated that the consul had nothing to say on the subject.

FEDERAL WIRELESS TO GIVE 24-HOUR SERVICE MONDAY, SAYS REPORT

An announcement was made this morning to the effect that, beginning Monday morning, the Federal Wireless Telegraph Company will inaugurate a 24-hour service and will be in a position to receive and transmit messages at all hours of the day or night. The test recently given on the company's equipment at both in Honolulu and on the mainland was lately completed, and the fact that it was found devoid of flaws is given as the reason for starting the new service at this time.

SCHOOLS WILL PARTICIPATE IN FLOAL PARADE

Eight Automobiles and Large
Float Being Prepared by Stu-
dents for the Carnival

CHAIRMAN OF COMMITTEES TO MEET THIS AFTERNOON

Garden Island Will Enter Very
Elaborate Exhibit, Declares
Rev. M. Lydgate

CARNIVAL MEETINGS TODAY.

The chairman of the several carnival committees will meet with Director-general James D. Dougherty in the rooms of the Merchants' Association, Young hotel building, at 4 o'clock this afternoon.

The chairman of all the committees of the Mid-Pacific Carnival will meet with Director-general James D. Dougherty at 1 o'clock this afternoon in the rooms of the Merchants' Association. The gathering will be an important one from the fact that but little more than three weeks remains until the opening of the celebration and all of the committees have been doing preliminary work upon which reports are necessary at this time.

There are 36 committees on the various features of the program and in several cases the duties of these committees make it necessary for them to keep in close touch with one another. It is expected that important, as well as interesting reports will be submitted this afternoon.

The public schools of the city began work today on the decoration of eight automobiles and a large float, and Ed Towse, chairman of the committee on this feature, is enthusiastic. The matter has been placed in charge of Mrs. Frederick Carter, principal of Central Grammar school by Superintendent T. H. Gibson, and the former has lost no time in getting together material for the decorations. The schools which will enter floats are Normal, Kaahumanu, Lihouka and Royal, Central Grammar, Kaimali, Kaili-waena and the McKinley high school.

The large float, which will be an elaborate affair, will represent the entire school body. It is proposed to have a large number of children on this float, garbed in suitable costumes representing the many races found in the institutions in Honolulu. This public school entry of eight decorated automobiles and a float is by far the largest showing the schools have ever made in a local parade. The pupils will do their own decorating under the guidance of teachers who are already planning the designs.

Rev. J. M. Lydgate of Kaula, who arrived in Honolulu yesterday on matters connected with the part which the Garden Island will play in the carnival next month, has informed the director-general that the mechanical effects of that island's float, which will be a representation of the famous "Spouting Horn," have been completed and have been given a thorough test. The reproduction, with its spray and whistling buoy effect, is remarkable, says Mr. Lydgate. Kaula has appointed its princess, Mrs. James K. Kula who, it is expected, will ride in the parade one of the horses belonging to Francis Gay.

NAVAL DOCKS FOR SWIMMING EVENTS OF MID-PACIFIC CARNIVAL

Pearl Harbor,
Jan. 22, 1914.
James D. Dougherty, Director-general, Mid-Pacific Carnival, Honolulu.
Sir:—I have this day received a communication from the secretary of the Navy granting, as requested in your letter of December 29, 1913, the Mid-Pacific Carnival the use of Naval Docks 1 and 2 for February 21, 1914, "providing no government business suffers through such use."
Very respectfully,
(Signed) C. B. T. MOORE,
Rear-admiral, U.S.N., Comdt.

The foregoing letter, received from Rear-admiral C. B. T. Moore yesterday by J. D. Dougherty, director-general of the 1914 Carnival, relieves the swimming events committee of the celebration of one of its principal worries, for it had been feared that some legal obstacle might lie in the way of the use of the two naval docks on which to erect bleachers to seat the large crowd which is expected to attend the aquatic festival. These docks are by far the best for that purpose and afford the only good swimming course for the championship races. The matter of securing the permission of the navy department to use the docks was an important one.

Some time ago Director-general James D. Dougherty addressed a letter to Rear-admiral Moore and the public on the subject of securing the docks, and the admiral replied that

Enver Bey, New Minister of War of Turkish Empire

Recent telegraphic dispatches from Constantinople carry the news that Enver Bey, at one time leader of the Young Turk party, and formerly Turkish military attaché at Berlin, has been appointed minister of war of the Turkish empire in place of Izzet Pasha, resigned.

The choice of Enver Bey is regarded as likely to rouse once more the anger of Russia, owing to the new minister's close friendship with Germany and the German emperor.

The presence of Enver Bey at the war office in conjunction with the recently appointed German military mission for the reorganization of the Turkish army, will solidify Germany's relations with Turkey.

BISHOP HARRIS RETURNING FROM WORK IN JAPAN

Has Spread Gospel in Orient
for 40 Years—Going East
to Broaden Scope

To spend 40 years of one's life in the endeavor to infuse the spirit of Christianity into the minds of the people of two nations, and to be successful in the undertaking is the unique experience which has befallen Rev. Merriman Colbert Harris, missionary bishop of the Methodist Episcopal church for Korea and Japan, who is a visitor in Honolulu en route to New York City, not on a vacation, but to secure further assistance so that he may broaden the scope of the great undertaking which he founded and has since carried out.

It was 40 years ago that Bishop Harris was sent to Japan by the Methodist board of missions and opened a little mission in Yokohama. At first he was allotted a three-mile radius in which to carry the message of Christianity; today he is recognized as the Methodist bishop of all Japan and Korea, is known and respected by nobility and peasant alike, and is considered the most influential man in the entire empire. When seen at the Young hotel this morning, the bishop chose to speak not on the work of Christianity in Japan 40 years ago, but of the work which it is doing today.

"In Japan we have a national federation of Methodist missionaries, the annual meeting of which has just been held," he said. "The address of the president, setting forth the events of the year, was very encouraging and showed that throughout the entire empire the churches are working in harmony. In similar reports, the representatives from the several Japanese denominations pointed out that the past year was the most successful one ever experienced. At that meeting it was decided that the churches would unite in a three-year evangelistic campaign. This campaign will be launched next month, and 50,000 yen will be raised to finance the undertaking."

"The meeting of the minister of education with the representatives of the three Japanese religions, held recently in Tokio, created considerable interest. A general agreement was made to the effect that, in future years, it will be

(Continued on page three)

GOLF TOMORROW.

There will be a medal play competition at the Country Club tomorrow afternoon, for which two drawings will be made, one at 1:30 and the other at 2:30.

Mrs. Charles E. Maud has offered a handsome cup for competition among members of the Oahu Country Club, but to date the grounds committee has not fixed the time of play or conditions of the event. This cup will not be played for tomorrow, but at some future time when all members can have ample notice.

MORE FORTIFICATIONS FOR OAHU REVEALED IN ANNUAL ARMY APPROPRIATION BILL

Measure Introduced Shows Extensive Land System to be Carried Out in Future in Addition to Present Forts—Congressional Approval Asked For Guns Already Sent Here

(Associated Press Cable)

WASHINGTON, D. C., Jan. 23.—Hawaii's fortification against possible invasion by a foreign foe is to be greatly extended and rushed to completion under the Democratic administration, according to important plans revealed today, when the annual army appropriation bill was reported to the house.

The bill, reported by Representative Swager Sherley of Kentucky, of the committee on appropriations, shows that an extensive land system of fortifications is proposed for Hawaii, the island of Oahu to be made impregnable. For fortifications the bill would provide \$457,000.

It is part of the war department's plan to establish a strong military base supplemental to the Hawaiian naval base at Pearl Harbor.

At the request of the war department, the same measure would give congressional approval to the transfer of 46 pieces of artillery for the territory and insular possessions. The guns were sent to the Philippines and Hawaii without congressional approval.

The bill appropriates \$5,175,200 altogether.

The above cable indicates that the plans of the Macomb board relating to the land defenses of the island, are to be carried out immediately. Four hundred and fifty-seven thousand dollars will only complete about a third of this work, but it is presumed that the entire appropriation may be spread over three years.

"This is good news," said Lieutenant-colonel John F. Morrison, a member of the Macomb board who reached Oahu two weeks ago to make a supplemental investigation, and who leaves this afternoon on the Ventura when shown the above cable. "I went before the military committee last session and urged that the entire amount for Hawaii's defense be immediately appropriated. The sum mentioned will go a long way for a start."

Neither Colonel Morrison or Major Conklin, chief of staff, was able to throw any light on the reference to 46 pieces of artillery. It is possible, however, that this is part of the ordinance rushed to Hawaii last May, although the number does not agree with the number received.

At department headquarters considerable interest was shown in the message, the Star-Bulletin cable being the first word received by local army officers of the details of the appropriation bill.

United Mine Workers Take Some Power From President

INDIANAPOLIS, Ind., Jan. 23.—A step to take from the executive officers of the United Mine Workers much of the power which, it is claimed, they have been using arbitrarily, was taken today when the Mine Workers in convention voted to place the right to appoint the "wage scale committee" in the hands of the delegates to the convention. This right has heretofore been exercised by the president.

Crown Prince Frederick Has Narrow Escape From Assassin

BERLIN, Germany, Jan. 23.—An unsuccessful attempt to assassinate Crown Prince Frederick Wilhelm was made today when the crown prince was alighting from his automobile at the palace grounds. The entry overpowered the man who made the attempt. No details of the attack are yet known.

Panama Railroad Legislation Up

WASHINGTON, D. C., Jan. 23.—The bill introduced by Senator Brewster of Kansas, amending the Alaska railroad bill, and which authorizes the president to lease a Panama road to the Panama railroad, a government-owned stock company, was carried today in the senate.

(Additional cable on page twelve)

KEALOHA CASE NEAR JURY

(Special Star-Bulletin Wireless)

HILO, Jan. 23.—The closing arguments on the case against Supervisor John Kealohe began at 1:30 o'clock this afternoon and it is expected that the fate of the supervisor accused of grafting will be in the hands of the jury tonight. There is some strong expectation, based on the court's ruling through the trial, that the charges will be rather favorable to the defendant by the prosecution. It is thought that the court may instruct the jury to convict unless the jurors believe the evidence perjured. Many expect a hung jury. There is much interest in the outcome.

COMMITTEE POINTS OUT NEED OF BOARD OF CENSORS HERE

Several speakers, including leading educators of the territory, and fore most social workers of the city, appeared before the police committee of the board of supervisors this afternoon, and for almost two hours presented their case to show the moral necessity of a committee for the censoring of moving pictures.

M. M. Scott, principal of the McKinley high school, A. F. Griffiths, president of Oahu College, Judge S. B. Dole, and Mrs. L. L. McCauley were among the speakers urging the creation of such a committee. J. Alfred Magoon appeared to oppose the proposition.

The committee did not state what action would be taken. The matter had come before them through a petition submitted by the Children's Welfare Committee of the Humane Society. Mrs. McCauley, Mrs. S. B. Dole and Mrs. Armin Haneberg appeared at the next meeting of the
